The CZ 75 is a Czech pistol produced in 1975 by ?eská Zbrojovka for export. Taking over the operation of the Browning Hi-Power, it is a weapon which is renowned for its qualities of comfort, precision and reliability. Used by Czech and Turkish police as well as several US police departments, the weapon is considered by some to be the best combat weapon in its class. Which earned him a number of clones produced around the world. Among these derivatives, the Italian Tanfoglio TA 95 and the Israeli Jericho 941 are the most popular.

Originally the CZ 75 is a double action pistol. An extra safety on the firing pin was incorporated in the late 1980s. Versions fitted with this extra safety are designated with a B as a suffix. Recently was launched an ultra compact version called 2075 RAMI (9 mm Parabellum and .40 S&W) existing in steel or polymer version.
