- **Concept:** CZ Shadow Series

A replica inspired by the legendary CZ Shadow

The **CZ SP-01 Shadow** takes its design cues from the famous sporting pistol developed from the CZ 75. This airsoft version retains the ergonomics and balance that made the original model a success with sport shooters and professional users.

CO2 operation, non-blowback

Thanks to its **non-blowback** system, this replica optimizes CO2 consumption and improves overall battery life. This design also reduces mechanical movement, offering simpler and particularly consistent use.

Lightweight construction and comfortable grip

The **FPV Full Polymer Version** design allows for a reduced weight while ensuring excellent maneuverability. The textured rubber pads immediately improve comfort and stability in the hand.

Fiber optic front sight and tactical rail

The front sight, equipped with a **red fiber optic**, facilitates rapid target acquisition, especially in low-light conditions. The integrated accessory rail allows for the installation of a compatible tactical light or laser.

Compatible with barrel extension

The barrel can accommodate a threaded extension by simply removing the front cap. This configuration allows the installation of compatible accessories such as part numbers **15924** and **15925**.

An iconic platform for sport shooting

The genuine **CZ SP-01 Shadow** has become a benchmark in dynamic shooting disciplines like IPSC thanks to its ergonomics, accuracy, and controlled recoil. This airsoft version retains that spirit with a comfortable and accessible platform.

- **Operation:** CO2 non-blowback
- **Firing mode:** Double action
- **Construction:** Full Polymer Version
- **Target:** Red optical fiber
- **Rail:** Picatinny accessory
- **Hop-Up:** Fixed
- **Compatibility:** Extensions ref. 15924 and 15925
- **Use:** Airsoft and recreational shooting

FAQ

Does the CZ SP-01 Shadow run on CO2?

Yes, this replica uses a CO2 cartridge to operate.

Does the pistol have a blowback system?

No, this version operates without blowback in order to optimize battery life and firing consistency.

Can accessories be installed on this replica?

Yes, the integrated rail allows for the addition of a compatible lamp or laser, and the barrel can accommodate a suitable extension.
