### Powerful and durable, ideal for intensive use!

Designed to power your most demanding electronic equipment, this battery is perfect for lamps, electronic collars, security systems or cameras.

A compact but powerful battery

The **CR2 lithium battery** is ideal for **intensive use**, thanks to its **750 mAh capacity** and a **constant voltage of 3V**. It provides reliable and stable power, even in extreme conditions. Compact (15.6 mm in diameter and 27 mm in height), it fits perfectly into small electronic devices such as **electronic training collars**, **tactical lasers** or **digital cameras**.

Excellent storage life

Thanks to its lithium chemistry, it retains its energy for up to **10 years** without noticeable loss. This is a valuable asset for professional users who need batteries ready to use in all circumstances.

Secondary specifications

- **International format:** CR2 / CR15H270
- **Common applications:** cameras, electronic collars, tactical accessories
- **Packaging:** single blister with euro hole
- **Weight:** Lightweight for optimal portability
