SKU	Designation	French Law	MSRP
A63330	LiPo / LiFe / NiMh battery charger	Vente libre	41.00 € incl. tax

Safe automatic charger with balancing circuit.

The BO manufacture charger can charge all types of standard airsoft batteries. (nimh, life or lipo)

It has many automatic features that adjust the current and voltage during cell charging/discharging.

Regarding lithium cells, the charger uses a secure process that considerably reduces the risk of overcharging and explosions generally due to user programming errors (only when using the lithium battery pack balancing plugs) . The pro-tronik charger uses a latest generation balancing circuit allowing it to check and balance, in real time, each Lithium element in order to optimize and secure the charging process.

- Supply voltage: 110 to 240 v ac
- Battery type supported: nimh, nicd, LiPo and life
- Number of NiMh / nicd cells: 1 to 10
- Number of LiPo cells / life: 1 to 4 cells
- Charge Current: 0.25-5.0A
- Charging power: 50W max
- Balancing current (lipo): < 500 ma max
- Display: operating mode indicator / battery type indicator / lixx cell number indicator
- Comes with **Tamiya Mini** charging cable
